Chapter Director

Gordon Combs

Happy Thanksgiving fellow Riders,

Julie and I would like to take the time to wish everyone a very Happy Thanksgiving. We hope you take the the time to be thankful for the blessings you have received. I am thankful for all my friends in GWRRA, they are the best. If you are traveling for the holiday, be safe and have fun.

Our Christmas Party is fast approaching. It will be held at the Fredericksburg Hospitality House on Saturday December 15th starting at 5:30. An all you can eat dinner buffet will be served from 6 till 7:30 including multiple desserts. Santa Claus will be paying us a visit so make sure to bring the little ones. We will have a dance floor available to dance to our hearts desire. ALL of this is being paid for by your chapter with the money donated for our triathlon support this year. All Battlefield Wings members will have their meal paid for. If you want to bring someone else, please reach out to me to discuss. THIS IS VERY IMPORTANT...I need to give a headcount no later than Monday December 3rd in the morning, so an RSVP IS A MUST.

An update on the passing of our friend Joe Campbell. A funeral service will be held for him on Friday December 28th at 1 pm at the Veterans Cemetery in Culpeper. I will be attending either by bike or car depending on the weather that day. Please let me know if you plan on joining me.

We have had some great fun and food in the last 30 days. On October 28th the Poulakowski's hosted our annual Pot Luck / Target Practice at their property. Attendance was light, but we did have a variety of food and a great time target practicing. Than you Tony and Sharon for your hospitality.

On November 11th the Smith's hosted our annual Maintenance Day and Pot Luck. A few bikes had some work done in Charlie's heated garage and we also consumed some great food in the same garage. Thank you Charlie and Ellen for always providing a great place to do this every year.

On November 10th, Lyle and I rode out to Tappahannock to take the Road Captains Course through the GWRRA Rider Ed program. It was held at the Tappahannock Essex Regional Airport which was a cool place to take the course. I became a certified Road Captain in 2003, but since it had been 15 years I decided to take the course again and I am glad I did as you remember what you forgot. Don't forget to congratulate Lyle on getting a new patch for his vest.

Asst. Chapter Director

Claude Revely

Notary Services:

I have renewed my Notary Certification and received my new stamps. I will continue to offer Notary services to Chapter members at no charge for a notary action (which is up to \$5 per action). As advertised, I am a mobile notary and will travel to a location to notarize documents and will ask for travel reimbursement @ \$0.54 cents per mile.

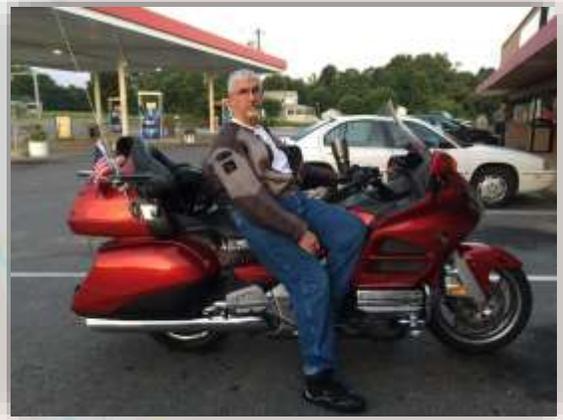

Claude Revely

CHAPTER VA-E, December 2018,
DISTRICT VIRGINIA

Ride Coordinator

Lyle Schrupf

COLD WEATHER RIDING

It's that time of year - temperatures are starting to come down. So, it's time to stick that bug-splattered textile jacket back in the closet and hunker down for another expletive-inducing winter.

That doesn't mean you need to put away your motorcycle in a dark closet until spring – but you do have to put away your ego and exercise extra caution when rolling out. Read on for five key winter motorcycling survival tips to make sure you come out of hibernation shiny side up.

Going into the winter months, if you prefer to avoid intimate engagements with the city's roadway, then take winter head-on with a motorcycle tire that has at least 50% tread life – try the ol' penny tire tread test.

Check the birthdate of your tires by scoping out the 4-digit code usually adjacent to the DOT markings. The first two digits indicate the week of manufacturing and the second two point to the year. Safe to bet anything older than 6 years won't be good enough.

When the mercury dips, extra attention needs to be paid to your tires' pressure. Cold temperatures cause air pressure to drop, which in turn will make you lose a few PSI on both ends of the bike. General rule of thumb is a 1-2-pound air pressure drop every 10 degrees.

Decent street rubber and asphalt generally don't get along until the tire gets to 135 degrees Fahrenheit. Without a crew chief waiting with a temperature probe at the corner gas station, you should probably assume your tires will take longer to heat up to proper grip temperature.

Roadways take the brunt of winter's wrath in the form of sand, leaves, gravel, potholes, construction, and distracted drivers. Combat these killers by keeping your eyes far ahead and assume the worst. Great riders scan ahead for things like steel plates covering construction, potholes conveniently in the riding lane, and sand washed into the road. You still need to worry about all the normal hazards we encounter while riding, but this time Mother Nature is stacking the cards against you. When in doubt, slow down, brake early, modulate levers smoothly and don't be afraid to take that next exit so you can regroup and warm up. Your bike, ego, health, and wallet will thank you.

Since most people aren't very active on a motorcycle, their body isn't doing much to produce heat on its own to counteract the cold. That means we have to do everything we can to insulate the body in order to keep what precious heat that we do produce actually on our body, and not floating off in the cold winter air.

Insulation boils down to two things: layers (to slow the rate at which our body loses heat), and wind proofing (to keep the wind from stealing our heat).

Let's talk about layers first. Layers are critical for riding a motorcycle in the cold weather of winter. The number of layers you'll need to wear is based both on personal preference (some people naturally run a little hotter than others) and the temperature outside. I've worn up to four layers in really cold weather. The key is to have enough layers on that you feel comfortable (maybe even slightly warm) when you step outside and just stand in place (before you ride your motorcycle).

Remember two things

- Your bottom layer should always be some type of snug fitting thermal or fleece underwear. This will create a warm layer of air between your body and this material. (Don't worry about buying the expensive wicking materials like Dri-Fit, etc. - you won't be sweating much so it won't do you much good)
- Don't wear so many layers that you lose mobility. If you can't hold your arms at your side because of all your clothing, then it's probably time to invest in either some warmer, or even heated, clothing.

Now, let's talk about wind proofing. The biggest issue that you will have when riding a motorcycle in the winter is keeping the wind out. Wind, specifically wind chill, is your worst enemy on a motorcycle in cold weather. Doing everything you can to stop this enemy is going to go a long way to helping you ride your motorcycle comfortably in the cold.

Wind-proofing also takes the most trial and error to perfect. It can take quite a while before you finally plug all those air leaks!

The main thing to do for wind-proofing is to make sure your outer layer is some type of windproof material. Leather is by far the most popular choice for this. Ideally, you should look for something that is both wind-proof and water-proof. There are many man-made materials that meet that criteria.

For boots, I'm a strong believer that you don't have to go and buy a pair of \$250+ Harley motorcycle boots to get the performance you need in cold weather. They just need to be comfortable, waterproof, and windproof.

The key things you want to look for in boots are:

- Fit (you don't want them to be tight because this will reduce circulation and make your feet colder)
- Water-Proof. Don't even consider them if they aren't.
- Above the ankle. This really helps with wind proofing.
- Insulation is a nice to have, but not necessary; you can get most of your insulation from putting extra socks on.

Now let's look at gloves, they can really be a trial and error process for motorcycle riding so make sure that you've found the right pair before embarking on your next long cold weather ride.

In looking for gloves:

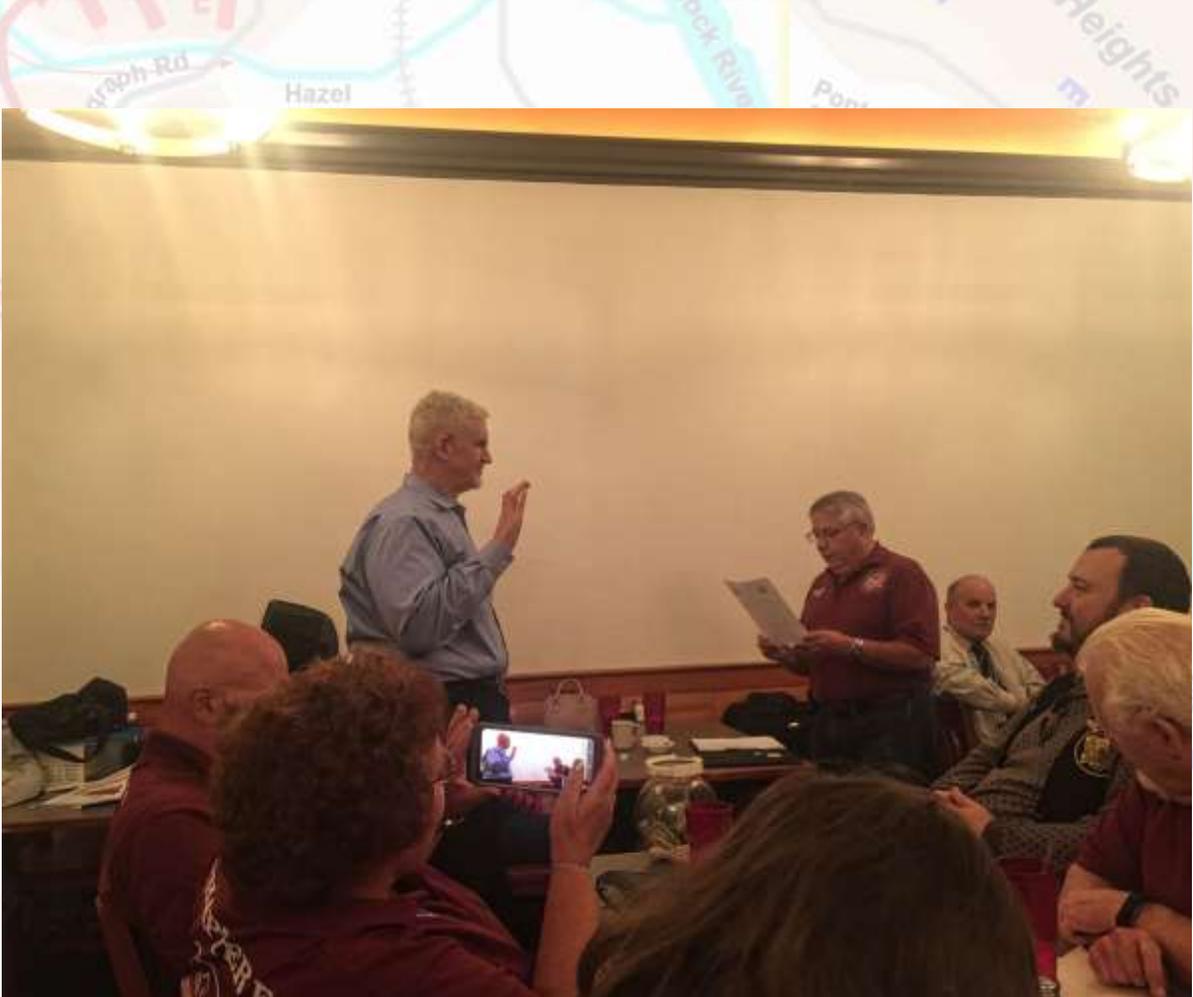

- Make sure that they are long enough that they completely cover the wrist (remember: wind-proof, wind-proof, wind-proof!)
- Find a pair with a hook and loop closure system at the wrist that allows you to tighten the gloves.
- Good fit - if the glove feels tight at all, get the next size up. We don't want anything to impede circulation!
- Good insulation - you want the high-efficiency stuff like 3M Thinsulate, not just a bunch of fluff.
- Good insulation placement - most gloves only put insulation on the top. You want a pair with a little bit in the palm and other parts of the hand as well.
- Pre-curved fingers - motorcycle gloves can wear you out if you're trying to squeeze that throttle all day. Pre-curved fingers alleviate this. If possible, try to squeeze a throttle before purchasing. Make sure the gloves don't get tight or bunch up – you'll really notice it after 30 minutes of riding.

Finally, after you've got all your gear sorted out there are a couple of things you'll want to be aware of in terms of safety before getting out there in the cold: Frostbite and Hypothermia.

Exposed skin is always at risk for frostbite, so make sure you don't have any exposed skin! If you feel like your skin is being pricked by needles, frostbite is on its way and you need to do something immediately. If your skin starts to turn white or waxy and feels numb and hard you need to get immediate medical attention.

Hypothermia is a separate concern. Hypothermia is where your core body temperature drops below the minimum temperature required for your body to operate. Hypothermia causes mild confusion, sluggish behavior, poor muscle coordination, and incoherent behavior. If you start feeling cold and can't decide if you should pull over, you are facing an early stage of hypothermia. Pull over immediately and get a hot coffee!

If you start shivering uncontrollably, feel sluggish, or even drunk, then you're in serious trouble. Hypothermia is already underway, and you need to stop immediately to warm up.

GWRRA President	Anita Alkire
GWRRA Directors Emeritus	Ray & Sandi Garris

District Educator

Hello Everyone,

This month I would like to focus on some facts about motorcycle safety and to review how members can find their Rider Education information located in the GWRRA Rider Education database.

Safety:

The following is information from the Motorcycle Law Group published last month. It's an interesting read and I look forward to the follow-up information on causative factors. Motorcycle Fatalities Declined Nationwide in 2017
October 8, 2018 On Wednesday, October 3rd, the National Highway Traffic Safety Administration (NHTSA) released its preliminary report on 2017 traffic fatalities. After two consecutive years of rising fatalities, 2017 saw a 1.1% decrease nationwide in overall traffic fatalities. Motorcycle fatalities, which also increased in both 2015 and 2016, saw a 3.1% decrease in 2017. That is certainly welcomed news. It is important to point out that the report represents the preliminary data. We will be able to better identify trends and causative factors in the next couple of months after NHTSA releases its full report on traffic fatalities, as well as its annual report that specifically analyzes motorcycle crashes and fatalities. However, what we are once again seeing in this year's preliminary report is that motorcycle fatalities continue to trend up or down with overall traffic fatalities. In 2017 motorcycle fatalities represented 14% of all traffic fatalities. That is where we have been for the past ten years regardless of increases or decreases in the number of traffic fatalities, changes in the number of registered motorcycles and other motor vehicles, or fluctuations in vehicle miles traveled. When the additional reports are released in the upcoming months, we will report on their findings and compare those findings with past reports to identify crash and fatality trends, as well as causative factors contributing to both motorcycle crashes and fatalities. As always, if you have any questions or comments concerning this information or any other matter regarding either motorcycle safety or laws affecting riders, please feel free to contact me.

Matt Danielson McGrath
Danielson, Sorrell & Fuller
The Motorcycle Law Group 1-800-321-8968 Motorcyclelawgroup.com

Education:

There was Road Captain Course held on October 13th with some of our chapters in western Virginia. It was a great day. I especially want to thank Bobbie Jo and Derwood Harrison for their hospitality. The classroom portion was held in their garage/classroom and riding portion included riding on the Blue Ridge Parkway.

That's all the news for now. Ride Safe!

LeRoy Gross
District Educator

Rider Education Database Information Access

I think it is worth revisiting the way that members can access their Rider Education Information. The following is a tutorial with pictures. I hope that this helps our member to keep up with their training and Levels. As always you can contact me or other members of the Rider Education District Team for assistance.

First go to www.gwrra.org
Hover your mouse over the Programs button. A gray colored area will drop down. Carefully move the mouse over to Rider Education.

Click on the Rider Education button and the screen below will appear.

Click on the blue My R.E. Information button

You are now on the sign on screen. You probably do not know your sign on information so click on the I need help logging in text.

Read the instructions to learn what your Username and Password are. If you do not know this information refer to your GWRRR membership card. All the necessary information is there. Now click on the Return to login text.

You are back to the login screen. Enter your Username and Password and then click the Submit button.

You will now see a list of everyone that shares your membership number. To see the training record for each person click on the View button.

Motorcycle Lobby Day Meeting 2019 Sunday January 20, 2019

The Virginia Coalition of Motorcyclists (VCOM) and Tom McGrath's Motorcycle Law Group invites all interested motorcyclists to attend this year's Motorcycle Lobby Day Meeting. This year it will be held on Sunday, January 20, 2019. Beginning at 1:00 p.m., Virginia Coalition of Motorcyclists lobbyists will lead an informational meeting at the Holiday Inn Richmond South, located at 4303 Commerce Rd., Richmond, VA 23234. At this meeting we will discuss this year's legislation affecting motorcyclists. We will also give pointers on how to talk to your legislators about these important issues. Later that evening, attendees will enjoy a free BBQ dinner. On Monday the 21st, we will leave the hotel at 8:00 a.m. sharp for our annual trip to the Capitol. The 21st is a holiday so many people will be off work. After lobbying our legislators, we will head to Penny Lane Pub where The Motorcycle Law Group will provide lunch to all who attended as a thank you for coming to support Virginia motorcyclists.

This year we intend to pursue two legislative initiatives that came out of this year's Motorcycle Legislative Roundtable. One will amend section 18.2-324 of the Code of Virginia to clarify that it is illegal to blow grass onto the roadway. Grass on the roadway can be a hazard to motorists, especially motorcyclists. The other piece of legislation will seek to change the law in order to allow motorcyclists to use the right shoulder of any limited access highway when traffic is congested. The proposed bill would only allow this for the purpose of leaving the highway at the very next available exit. This is an important issue to motorcyclists, especially in areas such as Tidewater and Northern Virginia where it is not uncommon for air cooled motorcycles to overheat in congested traffic.

We often find ourselves on the defensive end of legislation. VCOM lobbyists keep watch for bills which negatively affect motorcycling as well. As these bills are filed we will identify them so that we can discuss them at Lobby Day and convince legislators to oppose them.

I encourage everyone who can to join us. It is a lot of fun, it is educational, and most importantly it shows the legislators that motorcyclists are a significant and active portion of the electorate.

For more information you may call VCOM at (800) 437-9434. For Room Reservations call (804) 592-2900. Make sure to ask for the Motorcycle Lobbyist Event Rate. We hope to see you at Lobby Day.

The faster we can get back home and fix those goodies**

**Come and join the Holiday Season with us!
This will be a "Pot Luck" supper with Turkey & Ham**

**Chapter W – Vegetables & Paper products
Chapter D – Desserts & Drinks**

**Lots of Fun! Bring the whole Family!!
Hopefully we'll have lots of music to enjoy!
Please RSVP to your Chapter Director ASAP
We will need an accurate count to set up the room.**

There will be a gift exchange for the adults. (Please tag items for a Lady or Man). Suggested range: \$10.00 to \$15.00. Santa will be making an appearance, so if you're bringing a child or grandchildren, please provide a gift with their name on it!

Directions:

From 60 West: Take left turn at Bon Secours Watkins Med. Ctr. (Westchester Shopping Center will be on the right) You will be on Otterdale Road. Go straight on right side of road around circle. Keep going straight and American Legion will be on your left.

Go 288 (towards Rt.60) to Old Hundred Road, turn Right on Otterdale Road. Drive 1.1 mile and you see the American Legion on your right.
