Running Out of Summer

Greetings all.

We're half-way through August. Kids are back in school (unbelievable!) and we'll soon be enjoying cooler weather.

Then, a lil' while later, wishing the warm weather was back. So let's take advantage of it while it's here.

We did just that on August 5th, when Chapter E hosted the VA District North Ride. I think it was a grand success. The ride - 14 Bridges Over Lake Anna - was planned and designed by Gordon, who did a great job. It covered 51 miles through four counties: Caroline, Spotsylvania, Louisa and Orange. We started at Sheetz, I-95 Exit 110 with 21 motorcycles,

and ended at Tim's on the Lake, where 27 folks enjoyed lunch. Following lunch, ice cream was briefly considered - until Frankie demonstrated just how challenging eating an ice cream cone can be. Most then skipped dessert! (Peggy & I got ours in a cup!)

Battlefield News September 2023, VOL 35 ISSUE 9

VA District Directors Lorrie and Dan were both under the weather (we send get well wishes), so when the floor was relinquished to Ass't District Director Randi Greene, she reminded us that Rally in the Valley and the All-Chapter Picnic are just around the bend and encouraged RSVPs for both. When GWRRA announced the organization was closing, Districts and Chapters were instructed to spend or donate their accumulated funds by the end of the year. Plans for Battlefield Wings was a major blow-out at year's end. District used their funds on 2022 Rally in the Valley and All Chapter Picnic. Then, prior to December, it was announced that District/Chapter funds could be carried forward if the chapter continued to exist as such. This, combined with our continual support of the Triathlons, has put us in a financially sound position. Therefore, to help support the 2023 Rally in the Valley, Chapter VA-E presented a check for \$1,000 to District.

Registration for Rally in the Valley is still open, so if anyone is on the fence, now is the time to decide and register.

The All-Chapter Picnic is September 16th at Twin Lakes State Park, near Farmville (see flyer herein). District needs a headcount by September 1st. Please consider joining your fellow Chapter Members for a nice ride, good lunch and share our love of motorcycling.

Last year there was a discussion about an overnight ride to Southwest VA to visit a couple-three locations listed in the Virginia Grand Tour passbooks. We talked about it a lot, but never got around to it. I'm floating the idea again.

Several years ago, I needed a non-emergency surgical procedure, with several weeks of convalescence to follow. I told the doctor I'd find a good time on my calendar and schedule it. A year later, I returned to his office - only he had transferred, and I made the same statement to his replacement. His simple reply changed my whole view of scheduling. He said, "Chief, there is NO 'good time' for surgery. Pick a date, mark your calendar, and everything else you have to do will either get done by someone else or be there when you return from convalescent leave." He was exactly right.

So, in the next 2 weeks or so, with consultation with Gordon, we're going to select a date for this ride. I'm asking for input: anyone interested, please e-mail or text me. Or we'll discuss at the next Chapter gathering. We can make the ride on the weekend for those folks still working, or during the week. Wide open to suggestions. The important part is to DO IT. Let's go riding!

ROMEO Rides are Thursdays. We meet at Wawa at corner of US 1 and Harrison Road at 10am.

Our next Chapter gathering is Wednesday, August 16th at Castiglia's on Courthouse Road. C'mon out for some good food, great company and always a LOT of laughs.

Joe Herron

Your thoughts, ideas and suggestions are always welcome.

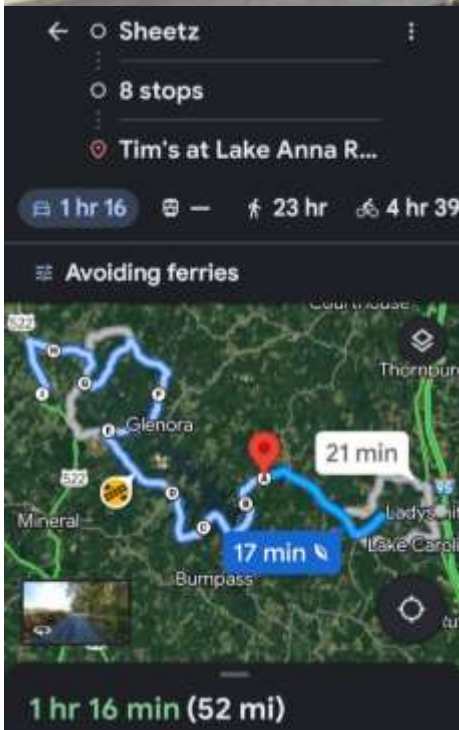

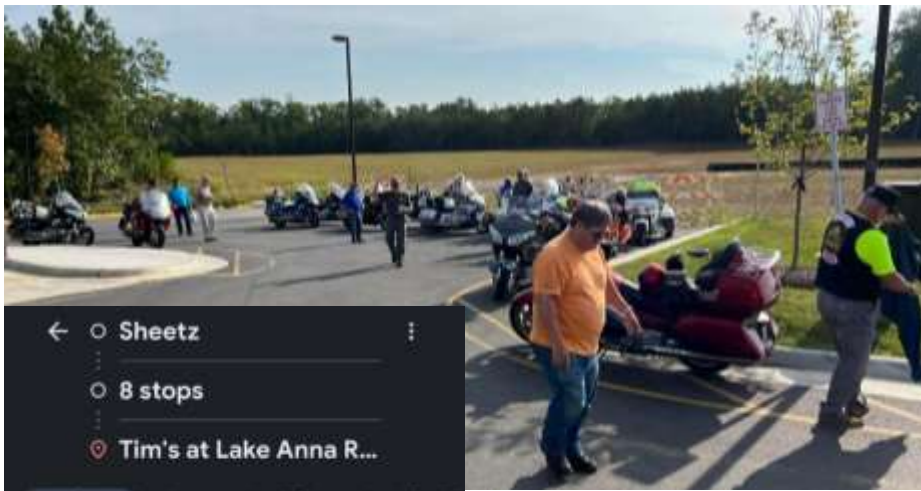

Member Experience (ME):

Gordon Combs

District Ride Day

Well, the date finally came...I'm talking about the North Virginia District Ride, which was hosted by our very own Fredericksburg Chapter E Battlefield Wings on August 5th. Since we are the most northern Virginia chapter, we were asked to put this ride together. Chapter Director Joe "Duke" reached out to me to come up with a

route for the ride. I immediately said I would love to plan a route around Lake Anna to showcase this most beautiful 3rd largest lake in Virginia (behind Kerr Reservoir and Smith Mountain Lake). The lake is 17 miles long and has over 200 miles of shoreline. There are 18 bridges that cross over the lake along various creeks and the main body of water. I planned a route that would have us crossing over

14 of those bridges. Twenty motorcycles met at the Sheetz at exit 110 off I95 at Ladysmith as this would be a central location to start and the new Sheetz offered a back space to gather the bikes without a lot of congestion. Included were members from Chapter C

Newport News, Chapter D Richmond and one lone rider from Abington Chapter H. For the two Thursdays leading up to the ride, Joe, Claude, Butch, Frankie, Larry and myself rode the route so I could get them familiar with it as they were either leading or dragging, or assisting the ride for our guests from the other chapters (also thanks to Jeff who showed up

Battlefield News September 2023, VOL 35 ISSUE 9

Saturday and assisted with dragging). We had kickstands up on the morning of the ride at 9:30 and off we went. Along the way to the lake, I used the CB to give a history of the lake, why it was built, how it was filled, and other lake facts. I was told at lunch that our guests really enjoyed the narrative. Along the way, we had one left turn that had a limited line of sight, so Joe went ahead, parked his bike across the road from it, and used his hand to let the groups know when it was clear to turn (a much-needed safety check, thank you Joe). After a one hour and 16-minute, 52 mile ride, we arrived at Tim's at Lake Anna as they were opening to enjoy a great lunch. We had an additional seven people join us by car at the restaurant for lunch including spouse's Julie, Peggy, Nancy and Debbie and Joe's grandson (his son joined us on the ride). It was a beautiful day for a fantastic District ride and I thank all my fellow Goldwing Riders for participating in our fun, food, and safety.

Till the next ride,

We don't always need an organized ride to get together. Some of us enjoy playing golf together when we can. On Monday the 7th, Claude, Joe, Larry, and I met at Meadows Farm Golf Course at 11:30 for

a round of golf. We also play golf with Eddie, but he was not with us this day. We always enjoy being together and playing golf, but on this day, our Goldwing training came into play. Our training always included "never leave a fellow biker behind". Well, Claude had developed a severe migraine that only was made worse by the heat

and lack of shade on this particular course. By the 10th hole, we looked up to find Claude sprawled out under a tree and not feeling well at all. It was suggested we get him back to the clubhouse and into some AC. Since I was his golf cart buddy, I did just that, took him in, made sure he got in the AC, then proceeded to load his clubs onto his bike (yes, he and Larry always ride their bikes to play golf), then loaded mine in my car, returned the cart, then went into the clubhouse and stayed with him until Larry and Joe finished. The time spent in the AC was just enough for Claude to feel a bit better and ride home. I followed his bike all the way to his driveway to make sure he made it home safely. This is what we do, look out for each other. Love these guys, great friendships made from the simple hobby of riding a motorcycle.

Tech Tips *from the Webmaster*

The Minimalist!

The majority of us ride motorcycles (umm, considering this is a motorcycle group) and find it very convenient to go minimalist as our Every Day Carry (EDC), only carrying items we have to carry. From wearing that 90s fanny pack to carrying a backpack, having those items handy that you feel you may need might be more difficult to carry than we thought. Having a minimalist wallet might be something you include in your EDC. The D03 Dapper bifold wallet by Dango Products is an everyday accessory that effortlessly combines cool design, exceptional craftsmanship, and perfect usability. Made in the U.S. from

machined aluminum, water-resistant DTEX, and genuine leather (in black or brown), the D03 wallet has space for up to 14 cards and cash.

You can order the badass wallet with a satin silver or jet-black aluminum chassis. Dango backs the product with a lifetime warranty. Get it from Amazon...

https://www.amazon.com/dp/B09256NXMN?linkCode=ogi&tag=bp-lift-20&ascsubtag=%5Bartid%7C2089.g.864%5Bsrc%7Carb_ga_bp_md_dsa_comm_mix_us_19655596040%5Bch%7C2b99fede07cd9e564ae36010edf14c15%5Blt%7C%5Bpid%7C10bd56a1-dbbe-4483-b389-2f4afe15d363&th=1

If you have an iPhone, another option might simply be the MagSafe wallet that holds three cards. I use this option to carry my driver's license, military ID, and most used debit card. It works perfectly for me since I have my other credit cards loaded into my iPhone with Apple Pay. Get it from the Apple Store or Best Buy...

Pelican also makes a rugged MagSafe case that attaches to the back of your iPhone just like the Apple version. The Pelican MagSafe wallet is the most rugged, most dependable option for carrying your essential cards alongside your iPhone. Its snap-on magnets are the strongest in its class, meaning that it won't separate from your iPhone in case you drop it. Impressively, the rugged case is also IPX4 water-resistant.

As expected from a Pelican product, its hard-shell exterior has a sturdy closure.

Important Change to Virginia Motor Vehicle Insurance Law

Dated: July 18, 2023

Some of you reading this may have already received a letter from your insurance company informing you of the recent change to Virginia law relating to motor vehicle insurance; more specifically, to how the amount of underinsured motorist coverage available to you is calculated. That letter may warn you that your premiums are about to increase unless you make certain elections as to your coverage. Please do not do that until you read the rest of this.

Before we talk about the change to the law, let's go over the old law. In order to understand the change, you have to know what it is changing from.

Up until July 1st of this year, if you were injured in an accident and someone else was at fault, the underinsured motorist coverage (UIM) available to you was reduced by the amount of coverage available to you from the policy owned by the person who hit you (the defendant). Keep in mind that UIM is coverage from your policy that is available to you when the person that hurt you did not have enough insurance coverage to pay your claim. Let me explain with an example.

You are cruising on your bike having a great day. The defendant is coming the other way in his SUV and takes a left turn in front of you causing an accident which severely injures you. Let's assume that you have a claim worth \$300,000. The defendant has an insurance policy with limits of \$100,000. That is the most that they have to pay, because that is all that the defendant bought. The rest you would have to get personally from the defendant, that is, if they have that type of cash lying around. However, you are protected by the UIM coverage from each of your motor vehicle policies. So let's assume that your bike policy also has limits of \$100,000. In addition, you own an auto policy with limits of \$100,000. That means that you have \$200,000 in UIM coverage. So when we add that to the \$100,000 from the defendant's policy, we have \$300,000 in total coverage available to satisfy your claim, right? Wrong. But Matt, why? There are three policies each with \$100,000. Doesn't that add up to \$300,000 worth of coverage? It does, until we subtract your motorcycle policy.

Under the old law, your UIM policies got a credit in the amount of the defendant's coverage. So in the above scenario, you had \$200,000 in coverage and the defendant had \$100,000. That means that your UIM coverage got to deduct \$100,000 starting with the policy of the vehicle that you were operating at the time of the accident. You only got to collect from the coverage that you had that was in excess to what the defendant had. That all changed on July 1, 2023. Virginia Code 38.2-2206 was amended to include the following language:

The endorsement shall provide that underinsured motorist coverage shall be paid without any credit for the bodily injury and property damage coverage available for payment, unless any one named insured signs an

election to reduce any underinsured motorist coverage payments by the bodily injury liability or property damage liability coverage available for payment . . .

So now, under the new law, you would have \$300,000 available to you. The reason for the change is that it was decided that if you paid for the additional \$200,000 in coverage, you should get the additional \$200,000 in coverage rather than just \$100,000.

This brings us to the letters being sent out by insurance companies. You automatically get the new enhanced coverage when your policy renews unless you elect otherwise in writing, which the insurance companies hope you do. Some of these letters almost encourage you to either elect the old coverage, or choose uninsured and underinsured motorist coverage in an amount less than your liability coverage. PLEASE DON'T DO EITHER OF THOSE THINGS!!! And yes, I am yelling. That is how important this is. I have sat in too many hospital rooms, or living rooms, or kitchens with clients who were severely hurt by someone with little or no insurance coverage. It always makes it worse when I have to explain that the suggestions that my client's insurance agent gave them in order to save them a few dollars a month has cost them thousands, tens of thousands, and even sometimes hundreds of thousands of dollars in much needed additional insurance coverage.

If you get a letter from your insurance company asking you to make an election concerning your coverage, I would think very hard before doing it. Pick up the phone first. Call your company and find out how much your premiums are really going to change before making any decisions.

If need be, give me a call. I will be happy to speak to you about your policies and make suggestions in order to ensure that you have the best coverage possible. And no, we don't charge anything to do that. We just don't want to be sitting one day in your hospital room, living room or kitchen explaining why your insurance company's idea for saving you a few bucks wasn't such a great idea after all.

If you have any questions concerning this matter, or if you would like someone from our firm to come out to a meeting of your club or organization to discuss this further, please reach out to me.

Matt Danielson
McGrath, Danielson & Sorrell
The Motorcycle Law Group

Will the Feds Ever Act on Autonomous Vehicles?

In 2017 and 2018, the House and Senate both attempted to pass legislation regarding the development and testing of autonomous vehicles (AVS). Those efforts failed to produce legislation, leaving the Department of Transportation and manufacturers to develop their own guidelines.

For 6 years Congress has failed to act... we hope things are changing! Last week, the Energy and Commerce Subcommittee on Innovation, Data, and Commerce held a hearing on this new technology. The hearing was titled: "Self-Driving Vehicle Legislative Framework: Enhancing Safety, Improving Lives and Mobility, and Beating China."

The Motorcycle Riders Foundation (MRF) has long advocated for motorcyclists to be included in any legislation on this topic. We've worked with our champions on Capitol Hill to stress how important it is for self-driving cars to have the ability to read, react and respond to motorcyclists on the road. During the hearing, House Motorcycle Caucus Co-Chair, Representative Tim Walberg made a point of mentioning what he has heard from us.

"Many in the motorcycle community are concerned that the technology is able to detect and protect motorcyclists on the road. We are very different from pedestrians and bicyclists because we are in and amongst traffic. It is a concern and I hope that we continue to address it."

As we know, no one is looking out for bikers, except bikers. Representative Walberg is a biker, so he gets it! Let's keep fighting, educating, and making our priorities known. If we don't do it, who will?

In just two months, members of the MRF will establish our legislative agenda for next year, at the Meeting of the Minds in Harrisburg, PA. If you're curious what we want in the self-driving car space, here's what we approved at the 2022 meeting.

2023 MRF Legislative Agenda - Critical Priority:

Advocate and monitor any legislation or regulations related to motorcycles concerning connected and autonomous vehicles (AV):

- *Endorse rulemaking to set new standards specific to seeing, detecting, and properly reacting to motorcycles.*
- *Ensure motorcycles are part of all testing and development procedures.*

- *Promote that any AV public user advisory committees should include a representative from the motorcycle community and a motorcycle manufacturer.*
- *Require a public, easily accessible, and searchable database where consumers can look up important safety information such as the limitations and capabilities of different products offered by AV manufacturers or service providers.*
- *Require that all AV manufacturers must submit safety evaluation reports to detail and make public how their vehicles identify motorcycles among other road users. Manufacturers must also include human error analysis in safety reports.*
- *Require that all AV manufacturers must publicly report crash data share incidents between AVs and motorcycles just as they would incidents between AVs and other road users.*
- *Protect the safety of motorcyclists with any rules or standards as it relates to electronic and cybersecurity systems including the clarification of rights of data ownership of any recorded data in the context of connected and autonomous vehicles.*
- *Inclusion of motorcyclists' perspectives in discussions regarding the Intelligent Transportation System (ITS).*
- *Work to ensure motorcycles are a separate classification of vehicle and road user for purposes of regulation and testing of AVs.*
- *Protect the set aside radio spectrums necessary for DSRC vehicle to vehicle communications.*
- *Protect additional spectrum as needed for Vehicle to Everything technology (V2X).*

Location

Twin Lakes State Park is near Farmville, about an hour southwest of Richmond.

To get there, take U.S. 360 West of Burkeville to Route 613 (Indian Springs Rd.). Then go east on Route 629 (Twin Lakes Rd.).

Its address is 788 Twin Lakes Rd., Green Bay, VA 23942-2525.

Latitude, 37.174829, Longitude, -78.273242.

<https://www.dcr.virginia.gov/state-parks/twin-lakes>

In the heart of central Virginia, this 548-acre, historic park offers many cultural, environmental and recreational activities. Overnight accommodations include a 33-site campground and 11 climate-controlled cabins. Visitors enjoy swimming, fishing, hiking, boating and lakeside picnicking.

RV—Tent—Cabins for Rent—Those that can, bring chairs—Pavilion has seating for 65

Chapter Directors:

Please put this on your calendars and pass on the information at your Meetings.

We will need a head count by September 1, 2023

Wear the colors or jersey of your Favorite Sports Team!

Get Ready for the Chapter Cheer Competition

October 5–7, 2023

Holiday Inn—Tanglewood

4468 Starkey Road Roanoke, VA 24018

Join WRVA as we return to Roanoke to celebrate our "Rookie Season" on the Wing'd Rider Team!

Reserve Hotel Rooms by June 1, 2023. After that date, reservations will be taken on a space available basis. Price is \$119.00 per night. This price **INCLUDES** breakfast.

<http://www.holidayinn.com/roa-tanglewood>

Call hotel reservations at 540.774.4400 and ask for the special "VA District Wing'd Riders" rate.

Hotel Incidental Policy:

A major credit / debit card is required for all incidentals. This will be asked for at check-in and it will be authorized for \$15.00 per day. If incidentals are charged to the room in any amount over the initial authorization of \$15.00 the system will automatically re-authorize for more money to cover the charge. If the guest is using a credit card the authorization hold could remain on the guest's account up to 3-5 business days after check-out. If the guest is using a debit card the authorization hold could remain on the guest's account up to 5-10 business days after check-out. The Hotel is not responsible for any overdraft fees the authorization hold(s) may cause.
